INTI College passed a recent inspection of quality assurance procedures with flying colours for a wide range of programmes offered in collaboration with the University of Hertfordshire and Coventry University in the United Kingdom. The national accreditation board of United Kingdom, the Quality Assurance Agency for Higher Education (QAA), has recently published a detailed report following a visit to the College last year.

A team of independent QAA reviewers gave INTI’s 3+0 programmes with the University of Hertfordshire and Coventry University top “commendable” rating after thoroughly and systematically checking the standards and quality of the programmes.

For the University of Hertfordshire, the audit focuses on the schemes of study leading to the following awards for BA (Hons) in Business Administration; BA (Hons) in Accounting; BA (Hons) in Marketing; and BEng (Hons) in Electrical & Electronic Engineering.

As for Coventry University, the scope of the evaluation is on the BA (Hons) in Business Information Technology, BSc (Hons) in Computer Science, BSc (Hons) in Software Engineering, BSc (Hons) in Computer Systems & Networks and BA (Hons) in Multimedia Computing.

The University of Hertfordshire in its report indicates that the developmental aspect of relations between the two institutions represents an exemplary demonstration of partnership per se, and merits commendations.

In celebrating the outcome of the quality audit by QAA, Mr. Tan Yew Sing, President of INTI International Group of Colleges comments: “This is a stunning achievement for INTI which reflects well on the academic and administrative staff involved.” Vice-President of Academic Affairs, Dr. Chia Swee Ping concurs that it is a vote of confidence in the standards and quality of the College and its courses. It is also a tribute to the caliber and efforts of INTI students.

OUTSTANDING RECORD:
Over 6,400 INTI students graduated from the University of Hertfordshire and Coventry University since 1997.
